ABDUL RAZZAQ

B.Tech Computer Science & Engineering | Full-Stack Developer | AI & DevOps Enthusiast

Phagwara, Punjab, India | **Email:** abdulrazzaq080806@gmail.com | **GitHub:** github.com/abdul78-create | **LinkedIn:** linkedin.com/in/abdulrazzaq78

EDUCATION

Lovely Professional University — B.Tech in Computer Science and Engineering June 2024 – June 2028 | **CGPA: 6.3**

STAR Junior College — Intermediate (Class XII) July 2022 – April 2024 | **82.0%**

Narayana e-Techno School — Secondary School Certificate (Class X) April 2021 – May 2022 | **89.0%**

TECHNICAL SKILLS

Programming Languages: Python, C, SQL

Web Technologies: HTML5, CSS3, JavaScript, React.js, Next.js, Node.js, NestJS

Databases & ORM: PostgreSQL, MongoDB, Supabase, Prisma ORM, Redis

Cloud & DevOps: AWS (EC2, S3, RDS, VPC, ALB, CloudWatch), Docker, Prometheus, Grafana, GitHub Actions

Developer Tools: Git, GitHub, VS Code, Postman, Render, Antigravity IDE

Core CS Fundamentals: Object-Oriented Programming (OOP), DBMS, Computer Networks, Operating Systems, DSA

Professional Strengths: Problem-solving, Team Collaboration, Adaptability, Technical Documentation, Attention to Detail

FEATURED PROJECTS

OpsPilot | Autonomous AI DevOps & CI/CD Platform Next.js, NestJS, Docker, Redis, Postgres

- Engineered an autonomous DevOps platform with visual DAG pipeline builder, compiling graphs to YAML with cycle detection (Kahn's algorithm).
- Implemented isolated Docker worker execution, HMAC-SHA256 webhook verification with Redis idempotency, and AES-256-GCM secret encryption.
- Delivered real-time job log streaming via Server-Sent Events (SSE) and Prometheus telemetry; verified with 160/160 passing test suites.

ViralVerse | High-Availability Cloud Infrastructure AWS EC2, ALB, RDS, S3, CloudWatch

- Architected a multi-AZ AWS cloud infrastructure designed to handle sudden viral traffic spikes with zero single points of failure.
- Deployed Application Load Balancer with health-check routing fronting an Auto Scaling Group of EC2 instances with least-privilege IAM roles.
- Configured Amazon RDS MySQL multi-AZ failover, Amazon S3 media asset storage, and automated CloudWatch alarms for operational visibility.

StockFlow | Containerized Inventory Platform & CI/CD React, Node.js, Prisma, Docker, GitHub Actions

- Built full-stack inventory platform featuring real-time stock alerts and full CRUD operations with Prisma ORM and PostgreSQL.
- Containerized all microservices with Docker Compose for local reproducibility and created an automated GitHub Actions CI/CD pipeline.

TRAINING & CERTIFICATIONS

- **DevOps Fundamentals: Building Skills from Code to Deployment** (Associated with StockFlow project) June – July 2026
- **Oracle Certified Foundations Associate – Agentic AI** (Oracle) September 2026
- **Oracle AI Database Certified Foundations Associate** (Oracle) September 2026
- **Computer Programming – 72 Hours** (iamneo) May 2024

HONORS & ACHIEVEMENTS

- **Ranked 181st — Apti-SPHERE:** Ranked 181st among 4,000+ national participants in aptitude competition. August 2026
- **Selected — Bharatiya Antariksh Hackathon 2025:** ISRO × Hack2skill national hackathon (Team BhuAgni). August 2025
- **Top 10 Finalist — HackTheBlock × LPU Hackathon:** Placed in top 10 for building innovative Web3 solution. March 2024
